Dahlonega,Ga.November 27th/08.

To the Prudential Committee :

Owing to the fact that in executing the college laws under existing conditions the faculty has found it necessary,already,to dismiss five boys during the present term;- that it has good reasons for beleeving that at least two of the five have purposedly secured their own dismissals;-that one bad boy saved, even at the expense of severe discipline,isa living advertisement for the college while one bad boy dismissed becomes,with his family bitter enemies;-that from a conviction of duty and a sense of the dual responsibility upon us personally,and upon the faculty as a body,we think that every reasonable method of punishment and of reformoughtto be tried and exhausted;- that solitary confinement is used in other military schools with good results and is recommended here by those familiar with military discipline,therefore be it -

Resolved,that we,the faculty,earnestly recommend to the Prudential Comitttee that a guard -house be provided where a boy,who can not otherwise be made subject to college laws, may be affectively confined in solitude until he is anxious to become obedient to authority.

Approved by the faculty Nov.28th,1908.

Resolved that the following memorials and Resolutions in honor of W.P.Price sr, the late President of this Board of Trustees be and the same are unanimously adopted.

William P.Price is dead. This melancholy announcement has brought the sadness of a personal bereavement to each member of this Board.To most of us he has been a life long friend and to some of us he was bound by the most intimate,personal and professional ties. In addition to the sense of personal loss his

death has made a vacancy in our number that all of us feel it will be hard to fill. For 36 years he has presided over the annual meetings of this Bodyand, in all of that long period, has never missed an annual Commencement. It was while he was a member of Congress from the 9th District of Ga. that he secured from the Government the old mint building and 10 acres of land as the beginning of the institution. He promised the Government at that time, that if this property should be devoted to education that he would devote the balance of his life to an effort to remove the dark lines of illiteracy from his native State. How well he has redeemed this promise in the devotion of his strong young manhood and maturing years to the cause of education, all of us know. He has given not only his time, but he has generously appropriated a large part of his personal income in helping the needy, young people of this section of the State. When the old mint building was burned he pledged his personal credit to secure the money for a new building until the Legislature could make an appropriation to replace the loss.

The members of this Board, as well as the members of the old Board of Trustees, can all bear cheerful testimony to his tireless devotion to the institution, through his long period of service of 36 years. In this long period of time he has seen the institution grow in power and in usefulness. Largely through his powful influence with friends, in the Legislature and out of it, the college now owns four well appointed buildings well equiped for successful work. Even in his last protracted illness, through weary hours of almost ceaseless pain, his eye would brighten and his face grow radiant at the reports of a larger attendance and growing facilities for better work in the institution. In one of his last reports to the Governor he said:- " For 36 years I have presided over the Board of Trustees

and directed as best I could, the destiny of the school. The enfeebled condition of my worn-out body admonishes me that this may be my last report to the Governor and to the General Assembly. I had hoped to round out forty years of my ministry of education in this section of the State, but it may be that I shall be called away before the times comes to make another annual report. If this be my last word, let me make it an earnest word to the Governor and to the Legislature! cherish this child of my affection. You have no institution that has done and is doing noblerservice for the State."

Any review of this long and useful career will show that he stands well at the front, in that company of distinguished Georgians who have rendered such noble service to the State. For distinguished loyalty to duty he won promotion after promotion in the War between the States. In that hard and trying period of the Reconstruction days he served his people well. He exerted a potential influence in framing the new constitution of the State and in passing Legislative enactments adapted to the needs of the people. With his own hand he penned the constitutional provision that " The Bible shall not be excluded from the public schools of the State". In the congress of the United States his leardership was so tactful as to win the affectionate regard of the strong men from all sections of the Union. Among the last messages sent by Gen .Grant when he was dying at Mt. Gregor was a message of warmest love and friendship to his Ga. friend, Col Price. When the wires flashed to us the message that the end had come to him, our veneraole leader and friend, our own hearts voiced their sense of loss in the language of one of old." Know ye not that there is a prince and a great man fallen this day in Israel."

The work ers die but the work go on. The members of this Board desire to put on record their profound sense of

of gratitude to God that He spared for useful service the life of our honored President through so long a period of years.

Therefore be it resolved:

^^^^^ First ^^^^

That in the death of W.P.Price, the honored President of this Board, the institution has lost a presiding officer who has faithfully and wisely directed its affairs for 36 years.

^^^^ Second ^^^^^

That in his public career, as well as in his private life, his high sense of moral rectitude, his unselfness devotion to duty, his unwavering loyalty to what he beleived to oe right, his patient love of his fellow man, and his unclouded faith in the All-wise Ruler of men, are shining facets of the bright jewel of his soul that should reillumine for us all what is true and what is good and what is beautiful in human life.

^^^^^^ Third ^^^^^^

That the cause of education in the State, and especially in this section of the State, has lost its oldest and wisest friend.

^^^^^^ Fourth ^^^^^^

That his long public career, unstained by any reproach and his bright and sunny home life, blessed with every human affection, make a shining example of civic righteousness and domestic happiness that all of our young men would do well to imitate.

Let a copy of this preamble and resolutions be presented to his family and spread upon the minutes.

On motion the Secretary was directed to sign contracts with the teachers elected for the term of twelve months services and salarys to begin on the 1st of September, 1909, and

ending on the 31st day of August, 1910, in accordance with and under the regulations of the resolution upon this subject adopted by this Board at its annual meeting, 1907, and recorded on the minutes of the Board page 11.

The following Resolution was unanimously adopted.

Resolved, that it is the sense of this Board that it is very desireable that in addition to the supervision of the various departments by the President of the Faculty, that the college should receive the benefit of his wide schollarship by systematic instruction on some branch of learning which he may select, and that he be requested to devote at least a part of his time to such work.

Resolved, that all work for out-side parties by any member of the Faculty or any of the students, in surveys of any kind, engineering workor making assays shall be by consent of the Pruhential committee, and such fees shall be charged in proper cases as the committee may determine.

The following Resolution was passed:-

Whereas the upper portion of the steeple of the main college building has been recently injured by lightning and some of the timbers are decayed: Resolved that the Prudential committee be authorized in repairing the same to remove the uper portion of the steeple and provide a safe roof for the belfry and surround the roof with with proper balustrade.

It is further Resolved, that the Prudential committee in its discretion be authorized to to protect the brick work of the main college building with paint or stucco.

On motion-

It was Resolved, that the report of the finance committee showing their examination and approval of the Treasurers report for the schollastic year ending July

the 1st, 1908 be adopted by this Board.

On motion

It was Resolved, that the authority of the Prudential committee to purchase a part of the land lying in front of the college heretofore granted be continued.

Resolved, that the Board of Trustees regret very much the forced abscence of Mr J.F.Moore a member of the Board of Trustees through illness and we hereby tender him our heart felt symbathy, and hope that he will soon be restored to his wanted health.

There being no further business the Board adjourned.

MEMO ANDUM

1st.- The War Department at Washington has given formal notice that the college must have enrolled by Sept 1 or soon after, a minimum of 100 students capable of meeting both COLLEGE and MILITARY requirments on penalty of WITHDRAWING the R. O. T. C. organization if these conditions are not met.

5th.- Special coaching classes have been organized and are now in successful operation to encourage and assist boys to exert themselves to qualify for college work by next September. This work is promising.

6th.- It is also proposed to inaugurate a special ADVERTISING campaign to put as concretely as possible the advantages and opportunities of the COLLEGE proper before all High School (state) graduates before June 1.

7th.-It is further planned to organize and operate a SIX WEEKS SUMMER training school for coaching near college students in order that they may be able to matriculate in college at the opening of next term in September.

8th.- It is regarded as important that COLLEGE ATHLETICS be greatly strengthend and advertised. This in itself would constitute a valuable advertising feature. ~~in itself~~.

Whereas the main object of this college is to develop the mind and character of the student and in the judgment of Board the military Department is conducive to this enh but not of such paremount importance that it should out rank other departments, it is nereby Resolved, That hereafter the Military Department is to be

considered as are other departments in the college. Its exercises and drills to be as heretofore but it will not be required to maintain at all hours of the day the riged military disciplin as observed at military posts. Uniforms must be kept neat and clean and worn at all drills and military functions but are not required to be worn at all times as heretofore. There shall be regular hours for reveille and taps. The purpose of this order is to place responsibility upon the student for decorum and good order through his own volition and respect for law, rather than through military compulsion. Should the students of this college exhibit conduct less dignified than heretofore it will indicate that the faith this Board reposes in their good sence and responsibility is misplaced. This Board recognizes the President of this college as the authority in matters of disciplin and other matters pertaining to this institution subject only to the athority of this Board. As president he is held responsible for the enforcment ou such regulations as he may from time to time deem wise and proper.

At our meeting in Gainesville,Georgia,April the 25th,1931,a committee was appointed by the Board to make a careful study of our needs and make a full report to this Board at this meeting.

The principal ~~xxxxxxx~~ thing that this committee had to study was the question of bringing our teaching force and salaries to meet the requirements of the Association of Georgia Colleges.

If we fail to meet those requirements in a reasonable time this institution would be droped from the list of accredited institutions.

We have done some painstaking work and believe that we have a reasonable solution to the problem confronting us.

A meeting of this committee was held at the office of the chairman in Atlanta,Georgia,two weeks ago and another meeting here yesterday afternoon.

As a basis of discussion this committee recommends---------- 1.That the North Georgia College confer only two degrees,A.B.and B.S.

2.This committee recommends that Professor B.P.Gaillard be elected as Emeritus Professor of Physics at a salary of $1.200.00,per yearand shall perform such duties only as the President and the Scholastic committee may outline.

3.This committee recommends the appointment of a librarian at a salary of $1.200.00 per year.

4. This committee recommends that the following budget for 1931-32 be adopted with such minor changes and adjustments as may be necessary..

This committee has had the coopperation of the President in all its investigatios,which has been exceedingly valuable;
